- Online Corporate Lifecycle Maintenance Savings Agreement Program

CAPCORP will help you to reduce downtime and equipment breakdown, resulting in a lower total cost of ownership.

At CAPCORP, we offer a full range of fabrication and onsite services. In the field, we have the capability to install or repair virtually any belting application.

CAPCORP's commitment to marketplace leadership and innovation has established our position as *customer-driven problem solvers*. Our Field Services division provides an unmatched value to customers in: Heavyweight and Lightweight belting.

CAPCORP's certified trained technicians, using only the highest-quality materials; provide the end user with an unmatched three-year belt splice warranty when you purchase a new Fenner conveyor belt from us.

# Heavyweight Belting

CAPCORP serves industries all over the world, in some of the most geographically diverse locations on the planet. Needless to say, our heavy conveyor belts have to be as tough as the people who operate them.

That's why our choice for a heavy conveyor belt manufacturer is simple, strong and clear: Fenner Dunlop Americas.

Fenner is the world's fastest-growing manufacturer of conveyor belting. The partnership between CAPCORP and Fenner is the ultimate winning combination: Fenner's unsurpassed quality conveyor belting and industry-leading sales and engineering staff combined with CAPCORP's expert sales, engineering, customer service and field service experts. The result? CAPCORP stands ready to service all industries and conveyor belt types, fabric or steel.

CAPCORP stocks conveyor belts up to 84" wide and has five full fabrication facilities in Bryan, Fort Worth, Houston and San Antonio, Texas, as well as Shreveport, LA, and nine other stocking locations. CAPCORP's flagship location in Fort Worth, Texas, utilizes nine cranes up to 20 tons and four top-of-the-line conveyor belt slitters, giving us unmatched (and virtually unlimited), stocking, slitting and service capabilities.
